What questions should customers think through before talking to pros about their needs?

Ask yourself if you should continue believing all those financial institutions you have trusted with your investments/tax-shelters/retirement accounts and your banks if they truly have your best interest at heart & place you in the highest earning & safest vehicles? Then remember in 2008 the total melt down in modern times where the BANKS were bailed out using our American Tax Payors Money.... Not a single corrupt Banker or Politician went to jail ... Nope not one! Remember 40-60% or more of all your investments disappeared! There is a better way....
